

Windows:

- *All construction must meet current codes as described in MN Residential Code 1309*
- Window permits are “over the counter” they can be issued the day of receipt
- Window permit fees are based on the valuation, call the bldg. dept. for a quote
- Windows must be installed per the manufacturer’s instructions or the IRC
- To meet the energy code requirements the U value of all windows shall be a minimum of 34. This information shall be made available for inspection purposes
- Pan flashing shall be installed per IRC 703.8.1
- Inspections: At the time of install to verify flashing and insulation
- The required inspection must be called a minimum of 24 hours in advance. Inspections are scheduled first come first serve, so you may not get an inspection in 24 hours so plan ahead
